

FOR IMMEDIATE DISTRIBUTION

3D-Micromac appoints new sales representative in India

The Bergen Group brings comprehensive experience and market knowledge into the partnership

3D-Micromac AG, a leading supplier of laser micromachining and roll-to-roll laser systems for the photovoltaic, medical device and electronics markets, is represented in India by a new local distributorship with immediate effect. The Bergen Group will actively promote and support high-precision laser micromachining systems developed and manufactured in Germany by 3D-Micromac.

Tino Petsch, CEO of 3D-Micromac stated: "We're delighted to welcome Bergen Group to our international sales team. We are pleased that its excellent sales and service experience for production equipment in photovoltaics, semiconductor, electronics, and medical device processing will enhance our reputation for delivering high precision and reliable laser systems to the Indian market."

About 3D-Micromac

Founded in 2002, 3D-Micromac AG is the industry leader in laser micromachining, delivering powerful, user-friendly and leading edge processes with superior production efficiency. We develop processes, machines and turnkey solutions at the highest technical and technological level. 3D-Micromac systems and services have been successfully implemented in various high-tech industries worldwide including photovoltaic, semiconductor, glass and display industries, micro diagnostics, and medical technology.
