

3D-Micromac wins German Enterprise Award in the category Laser Micromachine Expert of the Year 2017

The Worldwide Business Review Magazine has announced the winners of the 2017 German Enterprise Awards. 3D-Micromac AG, the industry leader in laser micromachining, received the Laser Micromachine Expert of the Year Award.

3D-Micromac's team of experts develop processes, machinery and complete systems at the highest technical and technological level. Operating in fast paced markets, staying ahead of industry trends is vital both for 3D-Micromac and its clients.

"Our products help increase production efficiency, optimize processes and lower costs in various areas of technology. Our innovations are built on more than ten years of expertise in laser micromachining. This especially applies to the excimer- and ultra-short pulse laser systems, as well as the roll-to-roll laser machining of flexible substrates.", Mandy Gebhardt explains.

The 2017 German Enterprise Awards have been designed to recognise and celebrate the achievements made by the innovative firms and individuals from their respected industry. Jonathan Hicks, Awards Coordinator, commented: "Germany is an exciting and dynamic market, and it is driven by a whole plethora of innovative businesses and individuals. It has been a real honour to showcase the hard work and dedication of my winners, I would like to congratulate them and wish them every success for the future."
